

# Junior Artist of the Month - May 2010

## *Hari Dewan*

*Year 2 read the story about Van Gogh's life and looked at his paintings.*

*"I looked very carefully at the Sunflower painting and saw that the vase was light yellow at the bottom and brown at the top. I made the sunflowers by looking at the different colours used for the petals and centre of each flower. I also painted the table in my picture a light brown the same as the original. I noticed that there were some sunflowers that had lost their petals, these I painted green in the middle with the outside orange and I saw that there were little bits of brown so I painted them."*
