

# Junior Artist of the Month – December 2010

## *Louis Holmes*

*“We made shape pictures to help us to remember the names of shapes. I chose a rectangle. I painted a rectangle shape and printed it onto my piece of paper, I turned it into a monster, it has sharp claws on one hand and a grabber on the other which it uses to take off the cage on its head to catch people. It also has lots of eyes so it can see very well.”*
