

SCS have dealt with Pulleyn Transport for over 8 years providing and CCTV security at their 3.9 acre site near Reading. Using the latest technologies SCS have been able to provide Pulleyn Transport and their customers, with the confidence of knowing that their transport and cargo are well looked after.

Pulleyn Transport provides specialized temperature controlled services throughout the UK and continental Europe and beyond, using its 55 strong vehicle fleet from its site in Reading. Pulleyn also has frozen and chilled storage facilities of approximately 42,000 square feet. They have attained an unrivalled reputation for providing uncompromisingly high standards of service to their clients.

Founded in 1976, Pulleyns started work in the specialist sector of computer deliveries, installations, exhibitions, road shows and specialist events and steadily grew to include warehousing and temperature controlled transport services throughout the UK & Europe.

Recently have under gone successful European tours working very closely with Ken Graham Trucking. Ken himself has a wealth of experience touring with some of the world's most prestigious Orchestras all across Europe and the rest of the world. Pulleyn Transport now work alongside Ken on a regular basis learning at every level, teaching themselves and their dedicated crews the importance of delicate handling, loading and temperature control of invaluable instruments.
