

Repairing existing gates

There are many people with automated gates, but do not know what to do if they break down, stop working or if they just need to order new parts. Well you will be pleased to know that SCS can help with our dedicated service team we can book a service call for an engineer to attend site and analyse the problem, you will then have the following options.

- If the gates can be fixed then our engineer will do his best to fix them that day (All hourly charges will be explained at the time of call).
- If parts are needed then you will be given a quotation for SCS to supply and install the new parts.
- You will then be given the option of a service agreement from three different options standard, intermediate or comprehensive.

(Terms and conditions apply for maintenance agreement holders and non maintenance agreement holders).

Telephone: 0118 978 3381
